Dear Mr. Yost:

FY 2007 SUPPORT COST BY FUNCTIONAL ACTIVITY REPORT (SCFAR) PEER REVIEW – Advanced Mixed Waste Treatment Plant

The SCFAR Peer Review Team has reviewed the FY 2007 Support Cost by Functional Activity Report prepared by Advanced Mixed Waste Treatment Project (AMWTP). The purpose of our review was to confirm that the data reported by AMWTP complied with the guidelines and definitions issued by the United States Department of Energy (DOE) and to fulfill a DOE requirement to have all of the reporting sites independently reviewed on a periodic basis.

AMWTP FY 2007 Support Cost by Functional Activity Report Process

AMWTP primarily uses their Work Breakdown Structure to categorize their costs. It is further refined as needed by account codes.

Since this is a new contract, this is the first peer review of AMWTP's SCFAR report and they have no previous recommendations to verify.

Items Identified During the FY 2007 Peer Review

1. PM&S Mail, PSTG, Courier is categorized in the Maintenance category (\$31.3k).

Team Recommendation: Move costs to the Information Services category.

Site Response: AMWTP agrees to the team's recommendation

2. PM&S RCRD STRG, Shred SRV is categorized in the Maintenance category (\$9.5k).

Team Recommendation: Move the cost to the Central Administration Services category.

Site response: AMWTP agrees to the team's recommendation.

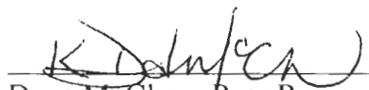

Accuracy Assessment

The Peer Review Team has concluded that AMWTP has met the intent of the SCFAR guidelines and definitions and has achieved a level of accuracy at or above 90%.

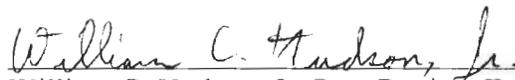

We would like to thank Mr. Carl Sellers for his outstanding effort and support.
